

JLG® Compact Telehandlers

Models with capacities up to 5,000 or 6,600 lb and reach to 19 or 23 ft

JLG®

The Power To Do More

Discover a big idea in

Built to provide improved access on crowded job sites, the two new JLG® compact telehandlers give you the power to do more. Once you look past the agile design, high-level comfort and ease of operation, you'll discover all the power, versatility and reliability you expect from a world-leading equipment manufacturer. Both compact models feature cabs with

improved visibility, single joystick proportional controls, and high performance Deutz turbo-diesel engines coupled with a two-speed hydrostatic transmission. Plus, with reach heights of 19 and 23 feet, capacities of 5,000 and 6,600 pounds, and a wide range of attachments, you get everything you need to handle a wider variety of contracting work.

MORE maneuverability

Compact dimensions, four-wheel drive, and three different steering modes help make these machines highly maneuverable for working in and around buildings and other confined work areas. Plus, with a powerful 100 hp Deutz turbo-diesel engine and two-speed hydrostatic transmission they can handle rough terrain.

Front wheel steer when driving on the road

All-wheel steer to help reduce the turning radius in confined areas

Crab steer for sideways movement and precise positioning before lifting

MORE versatility

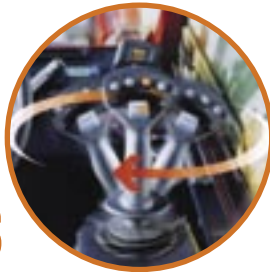

JLG compact telehandlers can perform a diverse range of tasks in a variety of applications. Optional attachments are available to extend the flexibility of these machines even farther. Operators in applications as diverse as construction, civil engineering, public works and agriculture will find an effective solution to their needs.

compact telehandlers

**UP TO 6,600 LB
capacity**

Strong and reliable JLG booms provide higher capacities and extended reach.

ADVANCED controls

A single joystick proportional controller linked to industry leading electronics provides quick, smooth and convenient operation of all boom movements simultaneously.

Designed to boost productivity and reduce operator fatigue, JLG's exclusive "clear view" cab features a fully adjustable seat and steering column, a standard heater/demister, and optional A/C for added comfort. Plus, the low boom pivot and side-mounted engine improve operator visibility.

JLG Advantages

- Improved design for operator comfort
- Compact footprint for crowded job sites
- Three steering modes for changing conditions
- Improved operator visibility
- Variety of attachments for extra versatility
- Advanced controls for ease of operation

Versatile attachments help you get the job done

Choose from a wide variety of attachments and turn your JLG telehandler into a versatile productivity tool capable of handling dozens of job site challenges. The exclusive boom-end design allows a single operator to change from one attachment to another in a matter of seconds.

Standard Carriage (with pallet forks)

48 in. forks are fully floating and adjustable side-to-side for efficient load entry and exit.

Material Handling Bucket

Clean up the job site or spread gravel with a range of buckets.

Truss Boom

Allows the operator to position roof trusses, structural panels and formwork.

4-in-1 Bucket

Use it for loading, leveling, clamshell gravelling and bottom dumping.

Fork Mounted Lifting Hook

Slips onto carriage forks to lift or lower material without changing attachments.

Manure Bucket

Features a hydraulic grapple arm to assist in job site clean up.

Additional Attachments: Side-Shift Carriage and Side-Tilt Carriage

Model	Rated Capacity	Maximum Lift Height	Capacity @ Max. Lift Height	Maximum Reach	Capacity @ Max. Reach	Engine
JLG G5-19A	5,000 lb (2,268 kg)	19 ft (5.8 m)	4,000 lb (1,814 kg)	10 ft 4 in. (3.15 m)	2,200 lb (1,000 kg)	Duetz 2012, Diesel - 100 hp (75 kW)
JLG G6-23A	6,600 lb (2,994 kg)	22 ft 7 in. (6.9 m)	5,600 lb (2,540 kg)	12 ft 9 in. (3.89 m)	2,500 lb (1,134 kg)	Duetz 2012, Diesel - 100 hp (75 kW)

Powerful service and support

JLG is committed to providing the most powerful service, parts, support and distribution in the world. You'll have everything you need to keep your machine on the job, whenever and wherever you need it. Plus we have the financial power to give you more ways to acquire equipment through Access Financial Solutions, Inc.

Due to continuous product improvements, JLG Industries reserves the right to make specification and/or equipment changes without prior notification. These machines meet or exceed ASME B56.6-2002 as originally manufactured for intended applications.
